

Table 9. **Academic science and engineering research space needs, by geographic distribution: 2001**

Geographic distribution	Net assignable square feet [in millions]		
	Available space in 2001	Available space reported as adequate	Additional space needed ¹
All states ²	147.5	42.7	40.4
Northeast.....	29.6	11.8	7.1
Midwest.....	35.6	11.3	7.2
South.....	49.6	11.0	16.0
West.....	32.1	8.6	9.9
EPSCoR states ³	22.6	6.3	7.4
IDeA states ⁴	22.2	6.5	7.0

¹ Additional space needed is based on current research program commitments.

² Guam and Puerto Rico are excluded from the regions but are included in other table columns where appropriate.

³ States in which institutions are eligible for the National Science Foundation's Experimental Program to Stimulate Competitive Research.

⁴ States in which institutions are eligible for grants from the Institutional Development Award program of the National Institutes of Health.

KEY: EPSCoR = Experimental Program to Stimulate Competitive Research
 IDeA = Institutional Development Award program

NOTES: Components may not add to totals due to rounding.

The values for total S&E research space reported in this table do not include any imputed data for survey nonrespondents. Further, data were not imputed for available space reported as adequate or additional space needed.
